Reference number assigned to the case by the Contracting Authority: RES/01/01/2021/OK

### **INFORMATION ON CANCELLATION OF THE PROCEDURE**

The Contracting Authority informs about the cancellation of the procedure **on providing a publication on a climate-proof renewables development path within a 2030, 2040 and 2050 timeframe with an aspirational '100% renewables' target.**

### **SUBSTANTIATION**

The cancellation of the procedure is caused by a significant change in circumstances which appeared after choosing the best offer. A significant change in circumstances includes:

1. currently changing environment (external and internal);
2. new expert opinions in the field of abandoning coal and reaching an almost 100% renewable energy pathway in Poland.

For the above reasons, the Contracting Authority is forced to change the subject and nature of the order, better suited to the current conditions.

The Contracting Authority is planning to announce another procedure, taking into account the above changes.
